

# Certificate

This certificate has been granted to the company

**STAVKOV, s.r.o.**

945 01 Komárno, Družstevná 18, Slovak Republic

As certification of system for steel structures execution according to

**EN 1090-2:2018**

Execution class

**up to EXC3 including**

According to the certification scheme URS CS01 edition 2, rev.1 (based on scheme 6 ISO / IEC 17067 and on the management system auditing). Details of the certification scope are given in the certificate annex and in the audit report no.

**014958-004**

Production place:

945 01 Komárno, Družstevná 18, Slovak Republic

Certificate No.:

014958-CP-22-001

Date of issue: (initial)

10.06.2022

Date of issue:

30.05.2023

Revision No.:

01

valid until:

10.06.2024

Issued by: Jan Ondrouch

On behalf of the Product Certification Body

V 3255

# Annex of the Certificate

According to EN 1090-2:2018

Certificate No. 014958-CP-22-001

Revision No. 01

Product steel structural components for all types of buildings

Welding processes acc.to ISO 4063 and material groups acc.to ISO/TR 15608

135
1.1, 1.2

Design --

Heat Treatment --

Cutting, holing, forming Technology of cutting, holing, forming

Mechanical connecting Prestressed and non-prestressed joints

Surface treatment Surface protection technology by applying paints

Assembly Assembly technology – mechanical connecting / welding / direct assembling

Responsible welding coordination personnel

Name	Qualification	Position and level
<b>Ing. Attila Ivanics</b>	<b>EWE</b>	<b>6.2.2 acc. to EN ISO 14731:2019</b>

## General conditions

1. This certificate is issued in accordance with the accredited certification scheme CS URS01 in the valid edition.
  2. The certificate shall be valid unless the technical regulations or the relevant manufacturing conditions of the manufacturing site change significantly.
  3. This certificate may be reproduced or published for advertising purposes only as a whole. The text of the advertising message must not conflict with this certificate.
  4. In the event of reasonable doubt as to the suitability of the production place, the certification body may carry out an extraordinary unexpected inspection at the manufacturing site at the manufacturer's expense.
  5. This certificate may be withdrawn, restricted or suspended with immediate effect if the conditions under which it was issued have changed or the provisions of the conditions for certification have not been complied with.
  6. The following changes must be notified to the certification body:
    - a) a new product or significant changes to the relevant production facilities;
    - b) change of welding coordination;
    - c) inclusion of a new welding process, new groups of base materials and relevant WPQRs (welding process qualifications);
    - d) new relevant production facilities.
- The certification body will perform an additional assessment in the above cases.
7. At least 2 months before the expiry of the certificate, a request for surveillance must be submitted to the certification body.
